

McElroy Parts Enhances Jobsite Productivity with the Pitbull 26 Fusion Machine

McElroy Parts, a division of MIMECO, takes pride in offering the Pitbull 26 fusion machine, exemplifying the company's dedication to delivering industry-leading solutions to its clients.

Miami, Florida Apr 1, 2024 ([Issuewire.com](https://www.issuewire.com)) - The [Pitbull 26](#) is designed to fuse polyethylene pipes, elbows, tees, and other fittings, this fusion machine model reflects the company's commitment to

improving jobsite productivity and efficiency. This innovation adds to MIMECO's catalog of authorized [McElroy fusion parts](#) and products of exemplary quality.

Depending on the specific model selected, the Pitbull 26 boasts the capacity to fuse pipe sizes that range between 2" IPS up to 6" DIPS and 63mm through to 180mm in diameter. It's equipped with McElroy's proprietary Centerline Guidance System, which is a semi-automatic locking cam mechanism that ensures stable, unrelenting force throughout the cooling cycle.

Moreover, the Pitbull 26 offers a higher mechanical advantage ratio than the popular Pitbull 14, highlighting the company's continued pursuit of efficiency optimization. An additional feature that increases the Pitbull 26's adaptability is the interchangeability of its upper jaws and control levers, making it operable from either side of the machine.

[McElroy Parts](#) also offers a manual fusion machine stand to supplement the Pitbull 26, the Pitbull 14, and the 2LC, significantly simplifying their use. This stand can be adjusted to a convenient height for individual operators, enhancing ergonomics on the jobsite. Seamless compatibility with McElroy's PolyPorter and PolyHorse pipe supports ensures easy and efficient loading of pipes into the machine. With the option to collapse for storage and integrated wheels for transport, this stand perfectly complements the functionality of McElroy fusion machines.

McElroy Parts and MIMECO continue to strive to provide clients the optimum fusion solutions with McElroy fusion parts and equipment. As leaders in the industry, they are dedicated to providing products and services that maximize efficiency and productivity in the thermoplastic pipe fusing sector.
