

# PayNGO - A Cryptocurrency to help finance NGOs that helps to raise funds in a PayNGO platform

London, United Kingdom Apr 22, 2024 ([IssueWire.com](https://www.IssueWire.com)) - [Introduction](#)

**PayNGO** is a new crypto token donation platform, what makes **PayNGO** different is that it is decentralized, run by NGOs and charities approved by the platform, there is no middleman at all. This means 100% of the money donated goes to the charity, **PayNGO** is to use and crowdfunds, **PayNGO** does have small charge as an administration fee.

The global food crisis is getting worse by the day and global climate change is expected to make it worse. There are already around 3 billion people who do not have enough to eat. As a result, millions of children around the world suffer from malnutrition and hunger.

NGOs (Non-Government Organizations) raise huge funds from the community every year. However, in many cases, these funds are not used as intended by the donor or are misallocated. **PayNGO** is a decentralized NGO funding platform that gives donors a greater degree of control over where their donations will be spent.

Blockchain technology is the future. We believe in this statement. **PayNGO** is a new cryptocurrency. PayNGO's goal is to bring cryptocurrencies into the mainstream. **PayNGO** offers a token buyback and burning program. Proceeds from the sale will be donated to our Foundation, a world-leading NGO.

## How it works

- **PayNGO** is a customizable platform, which allows foundations to upload their projects, decide on a budget, set goals, and accept donations.
- **PayNGO** is a platform that allows any charity, NGO to accept donations and payments and distribute them to their intended recipients.
- It only takes a few minutes to fill out and upload the project to the platform. The project, with all the necessary details, will be available to all **PayNGO** visitors. Visitors can read about the project, watch videos and if they are interested in the project, they can help the foundation by donating money.
- Ready for mass adoption of “Open Source” and “Decentralized” NGO funding platforms for charities and non-profit organizations (Charity Parties) and donors, who use cryptocurrency.
- A skills-based voluntary matching platform that creates extra ethical value-added services and products for charities (Charity Events) using the power of a decentralized blockchain backed by our own cryptocurrency **PayNGO**.

## Tokenomics

- Token name: **PayNGO**
- Symbol: **PNGO**
- Decimals: 18
- Total Supply: 100,000,000,000 PNGO
