

# Pickleball Harbor Partners with Wingfield to Introduce the First Smart Pickleball Courts in Pennsylvania

Revolutionizing the Pickleball Experience with Innovative Technology

**Municipality of Murrysville, Pennsylvania Apr 30, 2024 ([IssueWire.com](https://www.issuewire.com))** - Pickleball Harbor, Pittsburgh Pennsylvania's premier indoor pickleball facility, is thrilled to announce its strategic partnership with Wingfield, a leading innovator in smart tracking technology for racquet sports. This collaboration will bring the first-ever interconnected tracking technology for pickleball to Pennsylvania, elevating the pickleball experience for enthusiasts of all levels.

Wingfield utilizes advanced AI, sensors, and analytics to enhance player experience, providing real-time pickleball performance metrics, interactive drills, and detailed game statistics.

**Analytics:** View graphical statistics displaying shot placement, shot speed, ball height over net, distance, number of forehands/backhands, winners, errors, and much more.

**Track Progress:** Improve faster by receiving continual personalized success scores, implement recommended play adjustments, and outperform in your next match.

**Drills:** Whether with a coach, instructor, or ball machine, track and analyze your stroke success for serves, lobs, cross-court dinks, drives, deep returns, third shot drops, overhead smashes, and backhands.

**AI Highlights:** Watch a recorded match in a fraction of the time with time between points automatically

removed.

Live Streaming: Baseline camera integration allows play to be streamed live on YouTube for friends and family to watch from anywhere in the world.

Jillian Bateman-McIntosh, Founder/Owner of Pickleball Harbor: "We are thrilled to partner with Wingfield to bring this groundbreaking technology to our facility. Wingfield will not only elevate the game for our players but also contribute to the growth of the pickleball community in Pittsburgh."

Jaan Brunken, Founder & COO of Wingfield: "We are proud to collaborate with Pickleball Harbor to introduce our tracking systems to the Pickleball community in Pennsylvania. We believe this partnership will set a new standard for pickleball facilities, combining technology and passion for the sport."

The collaboration between Pickleball Harbor and Wingfield represents a significant leap forward in the pickleball landscape in Pennsylvania. Introducing camera-based tracking technology will undoubtedly transform the way players experience and engage with the sport. Stay tuned for the official unveiling and get ready to elevate your pickleball game to new heights at Pickleball Harbor
