

# **Roberto C. Aguirre, MD, CPI, CCRP, Leads hyperCORE International in Groundbreaking Clinical Research Initiatives**

**Bringing Unmatched Expertise to hyperCORE International's Innovative Approach to Clinical Trials**

**New York City, New York Apr 10, 2024 ([IssueWire.com](https://www.issuewire.com))** - Dr. Aguirre, a Foreign Medical Graduate, is the Chief Medical Officer at hyperCORE International in Hialeah, Florida. Known for his exceptional leadership and extensive experience in the field, he leads hyperCORE International's network of top-tier clinical trial sites toward new heights of success and innovation.

hyperCORE International stands as a super network comprising highly acclaimed clinical trial sites that collaborate to accelerate and advance clinical research. Boasting 8 alliance partners and over 100 sites across 2 continents and 5 countries, hyperCORE International is revolutionizing the landscape of clinical research by harmonizing operations and sharing best practices among its members.

Education-wise, Dr. Aguirre earned his medical degree from Universidad Catolica Santiago de Guayaquil in 2001. He further honed his expertise at the University of Miami in Florida and earned his CPI certification from ACRP in 2013. His impressive credentials include membership in the Leadership Council on the CNS Summit, as well as certifications as a Certified Principal Investigator (CPI) through the Association of Clinical Research Professionals and a Certified Clinical Research Professional (CCRP) through the Society of Clinical Research Associates.

With a steadfast commitment to advancing clinical research, Dr. Aguirre co-founded AGA Clinical Trials in 2007, where he currently serves as Vice President. AGA Clinical Trials operates internationally, with sites in Miami, Florida, and Ecuador, South America, conducting Phase I through IV research across various medical specialties and services in collaboration with pharmaceutical, biotechnology, and medical device companies.

Dr. Aguirre's impact in the field of clinical research is underscored by his involvement in more than 220 research trials catering to pediatric and adult populations. His extensive volunteer work with hospitals in Ecuador, both as a student and a physician, further demonstrates his dedication to improving healthcare practices and patient outcomes.

On a personal level, Dr. Aguirre is fluent in both English and Spanish, enabling effective communication and collaboration across diverse teams and regions.
