

Paavai Engineering College Launches RAISE Centre of Excellence

Pioneering Innovation in Engineering Education by MIT Square, London

Chennai, Tamil Nadu May 4, 2024 (IssueWire.com) - In a remarkable stride towards fostering innovation and excellence in engineering education, Paavai Engineering College (autonomous) proudly inaugurated its RAISE (Research, Applications, Innovation, Science and Technology, and Entrepreneurship) Centre of Excellence, powered by [MIT Square](#), London on 28th March 2024. The unveiling ceremony, graced by eminent personalities from academia and industry, marked a significant milestone in the institution's commitment to nurturing future-ready engineers.

Situated at the heart of Paavai Engineering College's campus, the RAISE Centre of Excellence stands as a testament to the institution's unwavering dedication to fostering a culture of innovation, research, and skill enhancement among its students and faculty members.

The establishment of the RAISE Centre reflects Paavai Engineering College's vision to bridge the gap between academia and industry by providing a conducive environment for collaborative research and hands-on learning experiences. Equipped with state-of-the-art facilities and cutting-edge technologies, the center is poised to serve as a hub for multidisciplinary research, innovation, and skill development initiatives.

The welcome address was given by Dr. M. Sudha, HoD, ECE. The presidential address was given by Dr. M. Premkumar, Principal, PEC. In his address, he emphasized the importance of investing in advanced infrastructure and resources to empower students with the skills and knowledge required to thrive in today's dynamic engineering landscape. He reiterated the college's commitment to fostering a holistic learning environment that encourages creativity, critical thinking, and problem-solving abilities among its students.

Dr. Mithileysh Sathiyarayanan, Founder & CEO, MIT Square, London was the Chief guest. He explained the activities that will be carried out such as Research, Innovation, Ideas to product development, Internships, IP Rights, and Global collaboration, etc., Ms. Bhuvaneshwari Loganathan, Co-founder, MIT Square, is currently guiding us in the CoE activities. More than 100 participants attended the inauguration session. Heads, Faculty members, and students from various departments attended the inauguration. The session ended with a Vote of Thanks by Mr. S. Loganathan, AP, ECE.

The RAISE Center of Excellence will serve as a platform for students to engage in research projects, industry collaborations, and experiential learning opportunities across diverse engineering disciplines. From robotics and artificial intelligence to sustainable technologies and smart infrastructure, the center will support initiatives that address real-world challenges and contribute to technological advancements.
