Tepoztlan, Morelos Jun 2, 2024 ([IssueWire.com](https://www.issuewire.com)) - The Retreat Planner is excited to announce the launch of its signature 2024 retreat dates. This exclusive [throat chakra healing retreat](#), based on Leni Cavazos' renowned "Your Voice as a Love Language" methodology, promises to enhance attendees' visibility and success in their business ventures. Scheduled for October 11-15 in the serene and powerful lands of Tepoztlan, Mexico, this retreat is designed for those with a strong calling to share their message with the world.

Building a successful business requires confidence and self-trust. However, many entrepreneurs struggle with hidden limiting beliefs preventing them from effectively sharing their message. The Retreat Planner's throat chakra healing retreat helps participants overcome these barriers, empowering them to communicate fearlessly and achieve professional success.

"Confidence and trust in oneself are crucial for any work to be successful, especially when building a transformational business," says Leni Cavazos, creator of the "Your Voice as a Love Language" methodology. "Many people have something significant to share but freeze when the time comes because they are unaware of the subconscious limiting beliefs holding them back. Our retreat is designed to address these issues and help individuals unlock their full potential."

This retreat offers a unique opportunity to heal past traumas, transform into a messenger of love, connection, and expansion, and attract abundance. The intimate five-day, four-night experience in Tepoztlan includes nourishing meals, transformative healing activities, immersive workshops, personalized coaching, and convenient shuttle transportation from Mexico City Airport.

Every business owner, entrepreneur, wellness facilitator, and coach has the right to share their messages with the world. Still, communication often comes from a place of fear—a fear of being judged. The Retreat Planner addresses this and ensures attendees leave with newfound confidence, ready to make their voices heard globally.
