

THINKWARE Unveils Q200 Dash Cam with Integrated Wi-Fi Connectivity

The Q200 offers 2K resolution, built-in Wi-Fi, and the latest in sensor and recording technology

London, United Kingdom May 10, 2024 ([Issuewire.com](https://www.issuewire.com)) - The renowned dash cam brand THINKWARE has introduced its newest model, the Q200 Dash Cam, boasting unparalleled connectivity and cutting-edge features. Tailored for convenience, the Q200 effortlessly syncs with the THINKWARE Link App through Wi-Fi and Bluetooth, ensuring effortless adjustment of settings and access to footage.

Key Features:

- **2K Resolution:** Enjoy crisp, clear video quality day and night.
- **2-Channel System:** Includes front (1440P 30fps) and 360-degree rotating rear (1080p 30fps) camera for comprehensive coverage.
- **Wide Dynamic Range:** Automatically adjusts video settings for optimal image quality in varying light conditions.
- **Super Night Vision 2.0:** Provides clear footage in low-light conditions.
- **Image Signal Processing (ISP) Technology:** Enhances video sharpness in low-light situations.

Safety, Surveillance and Parking Features:

- **Smart Parking Mode:** Monitors surroundings for added security.
- **Safety Camera Alert:** Alerts drivers to nearby safety cameras.
- **Advanced Driver Assistance System (ADAS):** Includes Lane Departure Warning, High-Speed/Urban Forward Collision Warning, and Front Vehicle Departure Warning.
- **24-Hour Parking Monitoring:** Activated by hardwiring cable or OBD II power cable, the Q200 includes motion and impact detection for around-the-clock surveillance
- **Time-lapse Mode:** Allows for continuous recording over extended periods.

Durability, Convenience and Flexibility:

- **High-Temperature Protection System:** Ensures optimal performance in extreme weather.
- **Built-in Supercapacitor:** Provides reliable power and safe shutdowns in case of power failure.
- **Loop Recording:** When storage is reached, the system automatically overwrites the oldest files for uninterrupted recording
- **Multiplier Box:** The Multiplier Box combines four channels into a single feed, transforming a conventional dash cam into a comprehensive DVR system at a fraction of the usual cost. Subsequently, the recording feed from the rear cameras is neatly divided into four smaller yet remarkably detailed 480p images within the video file.

Retailing for £159 - £219, according to the number of channels required, the THINKWARE Q200 Dash Cam is available on the THINKWARE website, Amazon, and other speciality retailers. Enhance your driving experience and prioritise safety with the Q200.

About THINKWARE

Global IT Corporation THINKWARE DASH CAM was founded in Korea in 1997. Through consistent research and development in the field of smart car technologies, THINKWARE DASHCAM has established itself as the market leader in various sectors, such as dashcams, electronic maps, navigation, mobile applications, and tablet PCs.

Spearheading the competition with world-class image processing technologies and an intuitive, user-friendly interface, THINKWARE DASH CAM debuted in the US market in 2014, and later exported into 17 other countries, including the US, Canada and Japan.

THINKWARE DASH CAM has continued to astound the industry with its world-class DASH CAM lineup

during its presence at global exhibitions like CES, SEMA, and The Gadget Show Live. For CES2017, the world's largest consumer electronics show, THINKWARE received the Innovation Award of the Year for excellence in technology and design. The company has also received the IF, IDEA, and Red Dot Design Award.
