Los Angeles, California Jun 3, 2024 (Issuewire.com) - WEBRUS, a new digital website agency based in Los Angeles, has officially launched to help small and medium-sized businesses (SMBs) create and maintain an affordable and professional online presence. Recognizing the importance of being visible online, WEBRUS aims to address the main challenges SMBs face in establishing a strong

digital footprint. **Tackling Online Challenges for SMBs**

WEBRUS understands that SMBs often struggle with high costs, technical difficulties, and the time required to manage a website. To make it easier, WEBRUS offers:

- **Affordable Pricing:** With plans starting at \$49/month (billed yearly) and NO upfront design fee, businesses can afford a professional online presence without high costs.
- **Comprehensive Services:** From custom website design and development to SEO and speed optimization, WEBRUS provides all-inclusive packages. Each plan includes AWS hosting, an SSL certificate, and 1 hour of free updates per month for text and image changes.
- **Quick Launch:** WEBRUS ensures websites are ready within 14 days, allowing businesses to start benefiting from their online presence quickly.

Benefits for Small Businesses

By partnering with WEBRUS, SMBs can enjoy:

- **Better Online Visibility:** WEBRUS's SEO and optimization services help businesses rank higher in search engine results, attracting more visitors.
- **Professional Online Presence:** WEBRUS designs custom, user-friendly websites that showcase each business's unique brand, building credibility and trust with customers.
- **Time and Resource Savings:** With WEBRUS managing the technical aspects of the website, business owners can focus more on their core operations.

About WEBRUS

WEBRUS is a digital website agency in Los Angeles dedicated to helping SMBs succeed online with affordable and comprehensive support.
