STEPS TO A SUCCESSFUL Hair Transplant

Hair Transplant is a type of surgery that moves hair you already have to fill an area with thin or no hair.

VITAL STEPS FOR THE BEST TREATMENT AND GREAT RESULTS

- Relocation of hair follicles
- Right diagnosis and planning
- Storing collected roots
- Healthy collection of hair follicles

A high density hair transplant is successful when you get absolutely natural looking results.

WHEN CAN YOU EXPECT RESULTS?

Initial Procedure	Graft extraction and implantation sites mostly heal after about a week.
Hair will grow from the implantation sites for about four weeks and then go into a sleep phase.	By the fourth month new hair will begin to grow.

Would you like to explore affordable hair transplant options? Contact our City Facial Plastics hair transplantation clinic to schedule a consultation.
