

KHAI SKIN Unveils The Super C Serum: A revolutionary formula in skincare radiance

KHAI SKIN is excited to announce the launch of its break-through product -The Super C Serum, a cutting-edge formula that's set to redefine luminosity and the essence of a healthy glow. The official launch date for The Super C Serum is 28th June 2024.

London, United Kingdom Jun 6, 2024 ([IssueWire.com](https://www.issuewire.com)) - Introducing KHAI SKIN's first-ever skincare product - The Super C Serum, the ultimate solution for radiant and youthful skin. Meticulously crafted for those who seek to defy the ordinary, this powerhouse serum stands as a testament to the power of nature fused with cutting-edge science. This advanced formula combines potent antioxidants and restorative ingredients, carefully selected for their remarkable benefits, gentleness, and effectiveness. It activates your skin's natural healing abilities, preventing and repairing cellular damage, and leaving your complexion glowing with vitality and health.

"I am absolutely obsessed with this serum. It has transformed my skin so beautifully. My skin never looked so radiant and glowing."

- *Vimi Joshi, Celebrity Make-up Artist*

WHAT IT DOES: Targets everything from hyperpigmentation and fine lines to elasticity, dullness, and pore refinement, it's your all-in-one solution for a visibly well-toned, rejuvenated complexion.

WHO IT'S FOR: Suitable for All Skin Types: Meticulously tested, The Super C Serum is crafted to suit every skin type, ensuring everyone can achieve their brightest, most radiant skin.

BENEFITS

- The silky, lightweight formula absorbs quickly, penetrates deeply, leaving no residue, only a canvas of luminous, soft, and resilient skin.
- Potent antioxidant formula neutralises free radicals and protects the skin from environmental stressors.
- Boosts collagen production, and visibly improves skin texture, reduces fine lines and wrinkles, and enhances the skin's firmness.
- The superior formulation ensures deep nourishment without the stickiness and irritation associated with traditional vitamin C serums.

KEY INGREDIENTS

Vitamin C (THD Ascorbate): At the heart of The Super C Serum is a new generation Vitamin C, renowned for its superior ability to combat free radicals and significantly reduce the signs of photoaging. This powerful antioxidant not only shields your skin from environmental aggressors but also brightens, leaving your complexion dazzlingly vibrant.

Vitamin E + Ferulic Acid: These two ingredients, when combined with Vitamin C, create a triad of skin nourishment and protection. Together, they fortify the skin's barrier against pollutants and irritants, while enhancing the serum's antioxidant effectiveness for a healthy, resilient complexion.

Niacinamide: A true architect of skin texture, Niacinamide refines and revitalises, promoting an impeccably smooth and fortified surface. Witness the transformation as your skin becomes visibly more uniform in tone and texture.

Hyaluronic Acid: Dive into the depths of hydration with our serum, featuring Hyaluronic Acid known for its capacity to retain moisture. Experience a profound infusion of hydration, as it quenches your skin's thirst, leaving it plump, dewy, and supremely soft.

Amla Fruit Extract: A treasure trove of Vitamin C, the Amla Fruit is revered for its ability to stimulate collagen production. Discover a firmer, plumper skin that radiates with youthful exuberance.

Hibiscus Flower Extract: Known as the Botox plant, this extract contains natural AHAs that accelerate cell renewal, gently exfoliating for a brighter, more youthful complexion. Embrace the silky, smooth touch of your newly refined skin.

Free from sulphates, parabens, phthalates, drying alcohols, synthetic fragrances, and dyes.
