

## H.I.O.B. the Prodigal Music Composer Has Some Unique Soundscapes for the Dance Floor

The new yet fast-rising music composer H.I.O.B. is bringing to the stage some of the most unique techno sounds encapsulating the journey from soul to dance floors.

**Berlin, Jul 15, 2024 ([IssueWire.com](http://IssueWire.com))** - One name has been popping up in the music scene, especially surrounding the genre of techno music and it is none other than **H.I.O.B.** After going through the rough patches, the highs and lows of life this rising artist and piano prodigy has decided to dedicate the rest of his time and life to music and his fans are not proving him wrong in this

situation. Through his celebrated tracks like **'Ruderaliz'** and **'Addiction'**, this German artist is on his way of taking the clubs by storm with hypnotic tracks and pulsating beats.

The artist determined to give all his efforts in the line of music composition has founded his label company called Beta-Time Records and has been working with two collectives namely Universal Artist Collective and Vitamin Collective. The first track that the artist expressed being thrilled about is called **'Ruderaliz'** which is a hypnotic track curated masterfully and blended very nicely with fresh electro synthesizers that flow like a fleeting echo through the space. The bouncing beats along with the heavy bass create an unearthly experience for the listeners. The soundscape is both whimsical and fresh giving a boost to the people on the dance floor.

The second track that has been mentioned by **H.I.O.B.** is titled **'Addiction'** which is a true testament to the artist's journey from a naïve and humble student to a soon-to-be known as a big shot in the music industry. This track is more like an introspective journey that the artist wants his listeners to take on through the hypnotic and soulfully blended electronic tune and melody. This track acts as a blank canvas where this rising prodigy can express his raw emotions with the help of his outstanding, colourful and vibrant music production skills. His music is being streamed and listened to on [Spotify](#), [YouTube](#), and [Apple Music](#) and the artist can be visited on his social media profiles on [Facebook](#) and [his website](#).
