Meet our native Japanese teachers!

Tokyo, Japan Jul 25, 2024 ([Issuewire.com](https://www.issuewire.com)) - On July 26, 2024, Dialogplus Group Co., Ltd. announced the launch of a new plan at JPLT Online Japanese School. This plan offers unlimited Japanese lessons with native teachers for a monthly fee of \$60.

In addition to standard courses such as the Japanese Language Proficiency Test (JLPT) course and

daily English conversation course, JPLT provides a variety of unique classes taught by native Japanese teachers.

JPLT is the world's largest metaverse Japanese school, providing a free online community for learners worldwide. The number of people taking the Japanese Language Proficiency Test (JLPT) exceeds one million annually from 55 countries and regions. Interest in Japanese culture is growing, especially in the U.S. and Europe, where many people are inspired by anime and manga to learn Japanese recently. However, proper learning environments and peer support are often lacking in these regions.

To address this, JPLT has developed a [Monthly Subscription Group Lesson Plan] to provide affordable access to quality Japanese instruction with native teachers.

This plan is designed for:

- Individuals seeking an online Japanese learning community
- Learners wanting instruction from native Japanese speakers
- Enthusiasts interested in Japanese culture, tourism, and anime
- Those aiming for JLPT certification or learning Japanese as a hobby
- Foreign residents in Japan looking to improve their conversational skills

This plan is perfect for anyone aiming for JLPT certification or simply enjoying Japanese as a hobby, not just aim to pass qualification exams such as the Japanese Language Proficiency Test.

It's also ideal for foreign residents in Japan looking to improve their conversational skills.

The 66-hour online course covers grammar, vocabulary, kanji, listening, reading, speaking, and writing. Students take mock tests and quizzes to track progress and prepare for the exam.

Throughout the course, students will have the opportunity to take mock exams and quizzes to gauge their progress and readiness for the JLPT N5 exam.

### **Daily Conversation Course A1/A2**

The Daily Conversation Course is a class based on the CEFR standard to help students reach the A1/A2 level, where they can understand and use everyday expressions commonly used in various aspects of Japanese life and work.

students, can learn from and help each other, and embrace each other's differences and unique journeys. You can learn Japanese for free.

All group classes and one-on-one lessons are held here at the JPLT Metaverse Campus.

You don't need to go to a physical school anymore. Traditional learning methods that focus only on input to build knowledge are also outdated. Instead, immerse yourself in a cutting-edge learning space where both input and output occur naturally.
