

Unauthorized Use of Trump Likeness and Name Used to Defraud Patriots and Veterans

Stan Fitzgerald, Operation Bullpen Felon, Exploiting Americans Once Again

**STAN FITZGERALD
FEDERAL FELON**

**United States Penitentiary
Allenwood, Pennsylvania
Inmate #26312-050**

Winston-Salem, North Carolina Jul 10, 2024 (Issuewire.com) - A group of con artists preying on unsuspecting American citizens by perpetrating a series of deceitful schemes under false pretenses with unauthorized use of Donald Trump's name and likeness. Operating under various names and websites, which are designed to closely resemble authentic websites and organizations, these individuals have and continue to falsely claim affiliations with the Trump Campaign, invitations to events

and roles with organizations like Veterans for Trump and Veterans for America First – all fabrications to fool the American public and trick them into donating money under false pretenses. This group is known as The Fitzgerald Crime Family.

The true and legal Veterans for America First is legally incorporated in the State of North Carolina as Veterans for America First – National Chapter, Inc. along with Veterans for America First – North Carolina Chapter, Inc. vfafnc.com. (A search can be made at SOSNC.gov.gov).

The Fitzgerald Crime Family faces accusations of bullying, identity theft, stalking, the creation of fake social media and email accounts used to harass others and filing unsubstantiated law suits using false and fraudulent claims as intimidation tactics. A licensed private investigator from Virginia has signed a sworn affidavit confirming these activities. Sadly, they have swindled military veterans and political candidates across the country to date.

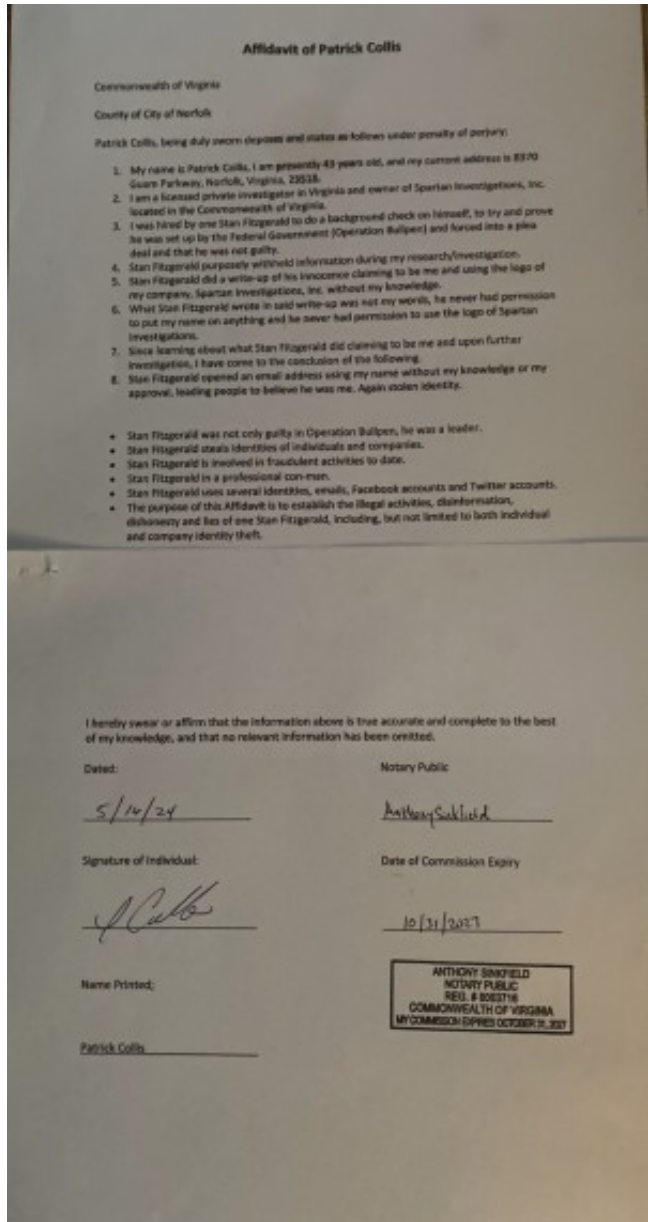

Central to these operations is L Strategies, LLC, registered in the state of Georgia and managed by individuals with controversial backgrounds including Federal Felons Stan Fitzgerald, Donna Fitzgerald, Georgia attorney Jared Craig and political activist Cait Corrigan.

At the helm is Stan Fitzgerald, a former police officer who retired under questionable circumstances amid a federal investigation into his involvement in "Operation Bullpen," the largest forgery case in U.S. history. Stan, alongside his wife Donna Kessler Fitzgerald and mother Josephine Fitzgerald, was convicted and remains a federal felon, having served time in Federal Prison in Allenwood, Pennsylvania. (Confirmed by Federal Prison in Allenwood, PA and US Southern District of California court records, this can also be googled "Operation Bullpen" and a past article by Rob Crilly of The Daily Mail.

Despite their criminal past, the Fitzgerald Crime Family continues their fraudulent activities targeting political figures, veterans, and patriotic symbols to lend legitimacy to their scams. They have even gone as far as falsely claiming endorsements and creating merchandise based on those fraudulent endorsements, such as a fabricated "Trump Tour Bus," which they later sold on eBay but was never authorized by Trump or his campaign.

Fitzgerald, a registered Democrat for 31 years (background report from a licensed private investigator) before becoming an Independent in 2017, now claims to be a movie producer, involved in producing low-quality films and selling them on social media. These activities are part of a larger pattern of deception aimed at hiding other numerous fraudulent activities.

As of 2024, the Fitzgerald Crime Family includes Stan Fitzgerald, Donna Fitzgerald, Georgia attorney Jared Craig, former Democrat and failed congressional candidate Cait Corrigan and potential new members such as retired Navy Admiral Charles Kubic, retired Army Captain and Navy veteran Robert Cornicelli and war college veteran Jeff Hoffman. Their deceptive practices pose a significant national security risk, and caution is advised when dealing with them.
