

# **Rameez Rehman, MD, Brings Cutting-Edge Vascular & Interventional Radiology to Toms River, NJ**

**Minimally Invasive Techniques Revolutionize Patient Care and Recovery**

**New York City, New York Aug 28, 2024 ([IssueWire.com](https://www.IssueWire.com))** - Dr. Rehman is a board-certified vascular and interventional radiologist in Toms River, NJ, offering innovative, minimally invasive surgical procedures that leverage advanced medical imaging techniques. With a commitment to providing exceptional patient care, he specializes in using X-Ray fluoroscopy, ultrasound, and computed tomography to diagnose and treat a wide array of medical conditions.

His approach minimizes the need for large incisions, resulting in significantly reduced recovery times for patients. By employing state-of-the-art imaging technologies, he can detect hidden illnesses that may otherwise go unnoticed, allowing for timely and efficient treatment options. “My goal is to enhance patient outcomes through precision medicine and minimally invasive techniques,” said Dr. Rehman. “I strive to provide comprehensive care that bridges the gap between imaging and clinical medicine.”

With an extensive and diverse educational background, he completed his undergraduate studies at Fordham University before pursuing medical education in the United Kingdom. His rigorous training continued with a residency in Internal Medicine at Nassau University Medical Center in New York. After gaining valuable experience in NYC, he recognized the potential of vascular & interventional radiology and opted to further specialize. He completed a diagnostic radiology residency at Rutgers Monmouth Medical Center, where he earned the designation of Early Specialization in Interventional Radiology. His fellowship at Emory University in Atlanta, Georgia, solidified his expertise in this innovative field.

The rapid advancements in medical imaging techniques and the increasing demand for minimally invasive procedures inspired Dr. Rehman to dedicate his career to Vascular & Interventional Radiology. His unique blend of experiences allows him to offer patients cutting-edge solutions that prioritize their comfort and recovery.
