

The Amazing Miss Global India's 2024 Winning Edge and ZillionPathways Public Speaking Programme's Role in her Success

The 2024 Winner, Sweezal Furtado, of Miss Global India 2024, one of the Prestigious Pageants, credits Ronald Olivera and ZillionPathways as a major influence for her Public Speaking Skills!

talented and articulate winner of the prestigious Miss Global India 2024 Title, is an icon of commitment and dedication. The coronation for her title, took place at Clarks Amer in Jaipur, on the 28th of July 2024, marking another milestone in Sweezal's already impressive pageant career. Along with this coveted title, she also won 'Miss Best Rampwalk 2024', 'Miss Best in Evening Gown 2024', and 'Miss Popular 2024' titles.

Beauty Pageants are among the most difficult and challenging contests to take part in. In the USA alone, over 2 million girls take part in thousands of beauty pageants and worldwide the number is staggering. Beauty is the underlying requirement of all contests, but the most crucial factors today are Talent, Dedication and most importantly Articulation!

In fact, a survey of 50 judges revealed that 90% of them gave the second highest marks for Public Speaking, second only to stage presence. Research also shows that the top 10% in Public Speaking and Communication skills have over 85% chances of making it to the finals, an enormously powerful statistic. And, even in the initial qualifying round, 70% of those who have good public speaking and communication skills qualify. Beauty Coaching Centres worldwide allocate over 60% of their curriculum to Public Speaking, Communication and Leadership Programmes.

But why are Public Speaking and Communication so vital to a person's success, particularly among Pageants? The reasons are primarily that winners are role models, and their most important work begins and ends with Public Speaking and Communication. They have multiple community engagements where they address and advocate the rights of women, children, and the less fortunate in society. They function as brand ambassadors for worthy causes and promote causes for the betterment of mankind.

This is why Beauty Pageants consider Public Speaking a vital skill for successful contestants. As Savitha Furtado, Sweezal's mother who is a pillar of support for her says, "Sweezal was always highly talented, bright, and sharp. But the ZillionPathways programmes were able to further improve what is an immense talent, and that is an important edge to have for anyone". Though Sweezal may be among more than 2500 young students that the CEO of ZillionPathways Ronald Olivera has coached in Public Speaking and leadership, he felt that "Sweezal always had terrific potential. It just needed to be fine-tuned and polished, and full credit goes to her for her dedication and commitment".

Some may not see the critical importance of Public Speaking, Communication and Leadership, and lose out at the last mile. Also, the attention quotient for everyone is totally different. This is why ZillionPathways today uses AI & Simulations, which are cutting edge and yield better results due to a high memory retention rate.

Finally, while it is not easy for all to reach the heights of a Sweezal Furtado, the point everyone misses is that if you do regular training in Public Speaking, Communication and Leadership, you succeed in diverse ways – all the time. It may be an interview you went for. It may be a session where you were able to articulate your opinion better. It may be a better career because you have impressed someone with your communication.

Any which way one looks at it, doing Programmes not only in Public Speaking, Leadership and Communication, but extending it to multiple skills like Teamwork, Motivation, Respect, and many others will give you that extra edge in your life. And using AI & Simulation Programmes like what ZillionPathways offers, is the best way to improve skills in the AI World with the best results in the market!
