

Trivecta Digital expands offerings for the Manufacturing vertical through Odoo partnership

Trivecta

Digital Solutions

Chennai, Tamil Nadu Sep 20, 2024 ([IssueWire.com](https://www.issuewire.com)) - Trivecta, a leading Information Technology solutions provider, is proud to announce that it has partnered with Odoo, a renowned open-source Enterprise Resource Planning (ERP) platform. This collaboration will strengthen Trivecta's ability to deliver customized solutions to the manufacturing industry, helping them overcome key challenges such as production planning and scheduling, limited supply chain visibility, rising production costs, and difficulty in expense tracking.

Sumit Yadav, Channel Account Manager at Odoo, expressed enthusiasm about the partnership, saying, "Partnering with Trivecta Digital marks a pivotal step in expanding Odoo's footprint within the manufacturing sector. This strategic alliance is set to unlock unprecedented opportunities for SMEs across India, offering them access to Odoo's comprehensive suite of applications along with Trivecta's expertise in delivering custom solutions. Our platform is designed to streamline operations, enhance efficiency, and drive significant cost reductions, ultimately boosting overall productivity. Trivecta's tailored approach to addressing specific manufacturing challenges aligns perfectly with Odoo's mission to equip businesses with cutting-edge tools. Together, we are committed to accelerating the adoption of Odoo's transformative solutions, reaching a broader audience of manufacturers and empowering them to achieve new levels of success."

Ramanan R V, CEO, Trivecta Digital, said, "Our partnership with Odoo allows us to offer an adaptable and cost-effective ERP solution to manufacturing companies, helping them manage their growing needs. At [Trivecta Digital](https://www.trivecta.com), we understand the strategic priorities of our manufacturing customers, and this collaboration enables us to offer solutions that are aligned with their goals of increasing productivity, reducing costs, and driving sustainable growth."

Paramasivam Venkataramasamy, Co-founder and CTO, Trivecta Digital, added, "From a technical standpoint, Odoo's modular architecture aligns perfectly with the complex workflows in manufacturing. By integrating Odoo's capabilities with our expertise, By integrating Odoo's capabilities with our expertise, we can deliver more robust production planning and scheduling tools, enhance supply chain visibility, and streamline Product Lifecycle Management (PLM), while also improving

supply chain visibility. By incorporating maintenance and quality control features, we provide real-time data that drives informed decision-making, optimizes costs, and ensures scalability across all operations.”

About Odoo

Odoo is a suite of open source business apps designed to meet the various needs of organizations: CRM, eCommerce, accounting, inventory, point of sale, project management, etc.
