

## Veterans for America First Launch Virginia Chapter

Navy Veteran Patrick Collis is appointed President for Veterans for America First - Virginia Chapter, Inc.

**Winston-Salem, North Carolina Sep 10, 2024 ([IssueWire.com](http://IssueWire.com))** - Veterans for America First – National Chapter, Inc. is proud to announce the launching of Veterans for America First – Virginia Chapter, Inc. The state President is Navy veteran, Patrick Collis who will be very involved with our Save a Vet with a Pet program.

Patrick’s wife Amber, is currently in the Navy and he is a proud father of three sons. Collis is a licensed private investigator and owner of Spartan Investigations located in Virginia Beach, Virginia.

Patrick and his company Spartan Investigations are also committed to helping stop child and human trafficking coming across our southern border.

As State President, Patrick will be contacting numerous veteran organizations and coordinating their involvement in Veterans for America First. Those programs include the endorsement of America First political candidates that publically support military veterans and their families.

It is our expectation that Patrick and his team will assist in several of our veteran projects, including the “Save a Vet with a Pet” program which trains dogs rescued from shelters and pairs them with veterans who suffer from such things as TBI, PTSD and other service related issues, that would benefit from a companion dog. Of particular note; Collis was the first to place a Pet with a Vet.

Veterans for America First also has the well received “Team Vet” program which works with professional sports teams to organize group events for veterans and their families to attend and be recognized.

All of the Veterans for America First programs are free of charge to all veterans and their families, said National President Butch Conz. [www.vfafnc.com](http://www.vfafnc.com)
