

Who are Veterans for America First, The Organizational Mission Statement by VFAF President CPT Robert M. Cornicelli

Veterans for America First publishes it's Organizational Mission Statement by President Robert Cornicelli VFAF Veterans for Trump

"At Veterans for America First (VFAF), we are a dedicated coalition of veterans, former law enforcement and pro- veteran American citizens united by a shared mission: to advocate for policies and leaders that prioritize the interests of our nation and its citizens. Our members hail from diverse military backgrounds, each bringing unique experiences and insights, but we are united by our unwavering commitment to America First principles.

Our organization supports candidates who demonstrate a clear commitment to upholding the values that we fought to protect—national security, economic prosperity, and respect for the rule of law. We stand behind former President Donald Trump and his vision for a stronger, more self reliant America, believing that his policies align with the needs of our veterans and the broader American populace.

VFAF is not just about political support; it's about fostering a community of veterans who are actively engaged in the democratic process. We strive to amplify the voices of those who have served, ensuring that their perspectives and needs are considered in the political arena. By mobilizing veterans and their families, we aim to influence the future direction of our country in a way that honors our sacrifices and promotes our collective well-being.

In an era where political discourse can be divisive, we emphasize the importance of unity among veterans and the broader American community. We believe that our experiences in service have equipped us to contribute meaningfully to discussions about our nation's future. Through advocacy, outreach, and education, VFAF seeks to bridge the gap between veterans and policymakers, ensuring that our interests are represented and heard.

As we move forward, our commitment to America First remains steadfast. We invite fellow veterans and all Americans who share our vision to join us in this important mission. Together, we can advocate for a future that honors our sacrifices and prioritizes the needs of our great" nation.

CPT Robert M. Cornicelli
US Army (Ret)/Navy Veteran
President VFAF/Veterans for Trump
