Tangerang, Banten Nov 3, 2024 ([Issuewire.com](https://www.issuewire.com)) - Approved Group International (AGI), in collaboration with the Australian and New Zealand Institute of Insurance and Finance (ANZIIF) and OJK

Indonesia, will host a highly anticipated webinar titled *“EV Insurance: International Best Practices for Innovation of New Energy Products and Services.”* This event is designed to equip professionals across Indonesia’s insurance, automotive, and energy sectors with advanced knowledge of EV insurance, focusing on international best practices and the latest innovations.

Scheduled for October 31, 2024, this webinar will bring together the expertise of AGI, ANZIIF, and OJK to address the complexities of the EV insurance market, featuring key presentations from top industry professionals:

- **Ammirul Akhmal Asyraf A**, Motor Vehicle Forensic Engineer at AGI, will present an *Introduction to Electric Vehicles (EVs)*, sharing his in-depth experience in forensic investigation of motor vehicle insurance claims, with a focus on the complexities of light vehicle and heavy machinery claims.
- **Surendran**, VP of Engineering Electrical & Electronics at AGI, will provide insights on *Autonomous and Advanced Driver Assistance Systems (ADAS)* and *Electric Motor and Power Electronics (EMI)*, focusing on fault analysis and cutting-edge technology applications in EV systems.
- **Anthony Baker**, ANZIIF Ambassador in China, will cover *International Best Practices in EV Insurance*. Drawing on his extensive APAC experience with Allianz and other top insurers, Anthony will discuss underwriting, product innovation, and strategies for managing EV-related risks in Indonesia.

The event includes a dedicated Q&A session where attendees can directly engage with the speakers to explore practical solutions tailored to Indonesia’s unique insurance market. The webinar will provide a comprehensive look at best practices in EV insurance and the latest advancements supporting the global shift towards sustainable and innovative energy solutions.

“With Indonesia’s rapid adoption of electric vehicles, it is essential for industry professionals to stay ahead of emerging risks and global best practices in EV insurance. This collaboration with ANZIIF and OJK reflects AGI’s commitment to driving innovation and supporting Indonesia’s insurance sector,” stated Kirit Kumar, Managing Director of Approved Group International.

This landmark collaboration between AGI, ANZIIF, and OJK Indonesia underscores a shared commitment to advancing industry knowledge and fostering innovation within Indonesia’s insurance landscape, ensuring readiness for the future of new energy products and sustainable practices.
