

SigmaPlot v16 Empowers Researchers with Deeper Data Insights

Palo Alto, California Nov 13, 2024 ([IssueWire.com](https://www.issuewire.com)) - Grafiti LLC, a leading provider of scientific data analysis software, is pleased to announce the launch of SigmaPlot v16. This new version empowers researchers and scientists worldwide to unlock deeper insights from their data.

SigmaPlot v16 offers a comprehensive suite of tools for data analysis, visualization and statistical modeling. Key features and enhancements in version 16 include:

- **Enhanced Data Visualization:**
 - **Violin Plots:** Visualize data distributions with greater precision and detail.
 - **Butterfly Plots:** Compare datasets side-by-side for insightful analysis.
- **Improved Data Handling:**
 - **Large Data Analysis:** Handle and analyze larger datasets with ease.
 - **Excel Import Macro:** Streamline data import from multiple Excel worksheets.
- **Advanced Statistical Analysis:**
 - **Confidence and Prediction Bands:** Quantify uncertainty and model predictions with greater accuracy.
 - **Error Bars:** Visualize data variability and precision for more robust analysis.

"SigmaPlot v16 empowers researchers to unlock deeper insights from their data," said Shirish Tangirala, Chief Operations Officer at Grafiti LLC. "Our goal is to provide scientists and researchers with the tools they need to accelerate their research and drive innovation."
