

## smartDOC: Automated Content Management now with GenAI

Easily manage regulatory content with streamlined process, leverage automation and deliver faster with our enterprise document / content system.

The logo for smartDOC is centered within a blue rounded rectangular border. The word "smart" is in a dark red, lowercase sans-serif font. The letter "D" is a large, blue, stylized font containing a white icon of a document with horizontal lines. The word "DOC" is in a blue, uppercase sans-serif font.

**Princeton, New Jersey Nov 7, 2024 ([Issuewire.com](https://www.issuewire.com))** - DDi, a leader in life sciences technology and regulatory solutions, today announced new version with GenAI enabled [smartDOC](#), an innovative automated content management platform designed to simplify content management. Built to meet the needs of the regulated industries, smartDOC enhances traditional content management with automation to enhance efficiency, productivity and compliance.

smartDOC platform helps companies navigate complex regulatory content needs by automating the preparation and management of critical documents for global requirements. With smartDOC, users can ensure real-time compliance, reduce human error, and maintain full control over document versions, saving both time and resources.

"With smartDOC, we are taking document management to the next level, helping our clients streamline their complex content needs," said Mahesh Malneedi, CTO at DDi. "Our platform is designed to meet the rigorous demands of the healthcare and MedTech industries, ensuring compliance is maintained at

all times."

By automating key aspects of document management, smartDOC supports companies in reducing risk, ensuring timely submissions, and focusing on delivering life-saving products to the market.
