

# Announcing A New Television Streaming Platform With No Monthly Fee

There is a new streaming platform on Roku, Apple TV, and Amazon FireTV called PeachStars

**Atlanta, Georgia Dec 9, 2024 ([Issuewire.com](http://Issuewire.com))** - This is a new non-monthly subscription-based platform. No monthly fees.

The great thing about PeachStars TV is the membership benefit. The \$4.99 membership is a small fee with great opportunities. Members have access to all the amazing content, such as Celebrity Mamas Check-In. The Celebrities Mamas Check-In is a wonderful show where moms of some of our favorite celebrities showcase their dreams and bucket lists. The network also picked up other shows like, Who is Jacques Johnson, Dreams of Terror, Intimate Affirmations (Let Me by Nicodemus), and more. Members who are creators and artists with top-tier content, ideas, or productions, can submit their ideas for possible approval, placement, and streaming. This membership platform will be showing content from actual creators who want to televise actual content. PeachStars TV is setting the trend for "actuality tv".

This television platform is available worldwide on all devices, but especially on your own television in the privacy of your own home. PeachStars is for actual creators with actual content. Long gone are the days of "bending neck" phone watching to watch your favorite creator's content.

PeachStars is bringing viewers actuality TV. Register now on PeachStars with Roku or Amazon FireTV or visit [www.peachstarstv.com](http://www.peachstarstv.com). <https://peachstarstv.com/register/>
