**Nashville, Tennessee Dec 18, 2024 ([IssueWire.com](https://www.issuewire.com))** - Guardian Cloud is proud to announce the launch of its groundbreaking school safety solution, designed to save lives and ensure situational awareness during emergencies such as active shooter events and natural disasters. This innovative approach leverages existing technology and integrates seamlessly with public safety systems, offering schools an affordable and effective way to protect students and staff.

## How Guardian Cloud Saves Lives

In life-threatening situations, preparation is key. Guardian Cloud's solution provides schools with the tools they need to respond swiftly and effectively:

1. **Panic Buttons on Cell Phones:** Empowering every staff member with a simple and accessible way to call for help.
2. **GIS-Standard Interior Mapping:** Creating detailed, NG9-1-1-compatible maps of school buildings.
3. **Secure Access to CCTV Feeds:** Providing first responders and law enforcement with real-time visibility of the incident site.
4. **NextGen 9-1-1 Integration:** Leveraging video, imagery, and silent communication to enhance emergency response.
5. **Building Information Modeling (BIM) Submission:** Delivering comprehensive building data via API to local authorities for seamless integration with Computer-Aided Dispatch (CAD) systems.
6. **No Additional Hardware or Software Needed:** Using existing systems and infrastructure to reduce costs.

## Affordability Without Compromise

Guardian Cloud is committed to delivering state-of-the-art safety without requiring additional purchases. If schools already have cameras or access control systems, our solution integrates with them, provided APIs and documentation are available. Any integration or API access fees from vendors remain the responsibility of the client.

## Exclusive Introductory Offer

To celebrate the launch, Guardian Cloud is offering this life-saving solution to 25 schools on a first-come, first-served basis. These schools will receive all features for free and lock in their pricing as long as they maintain their annual subscription. Each participating school will also retain copies of their GIS mapping files for future use.

## Why Guardian Cloud?

"Guardian Cloud is committed to providing the leading edge of situational awareness to save lives under extreme conditions," said Vic Herrera, CEO of Guardian Cloud. "Our solution ensures that first responders have the information they need when every second counts, without burdening schools with expensive new equipment or complex software."

## Act Now to Secure Your Spot

This introductory offer is available to only 25 schools. Don't miss this opportunity to revolutionize your school's emergency preparedness and join a growing network of schools taking proactive steps to protect their communities.
