

Iron Gate Records Signs Electrifying Blues-Rock Band Tennessee Blues Mob

Lebanon, Tennessee Dec 5, 2024 ([IssueWire.com](https://www.issuewire.com)) - Iron Gate Records is thrilled to announce the signing of the dynamic blues-rock ensemble, **Tennessee Blues Mob**. Renowned for their raw, heavy, and polished sound, the band seamlessly blends traditional blues with modern rock elements, delivering a powerful musical experience that captivates audiences.

Fronted by the legendary **Mike Phillips**, whose vocals are described as "raw, unbridled screams from the abyss suitable for Norwegian death metal but better for hard-edged blues-rock," Tennessee Blues Mob channels the spirits of Delta bluesmen with a contemporary twist. Their latest EP, *Deep Dark Alibi*, showcases this intensity, featuring standout tracks like "Wild Will Heal" and "Climb the Mountain."

The band's lineup includes guitarist **Shane Borchert**, known for his bold sound and eclectic writing style; keyboardist **Terry "The Machine" McClain**, a versatile artist who once recorded a new album every month across different genres; bassist **Damian Robinson**; and drummer **Scott Mincey**, both of whom provide a remarkable rhythmic groove that the band rides to perfection.

"Joining Iron Gate Records is a significant milestone for us," said **Mike Phillips**, lead vocalist of Tennessee Blues Mob. "We're eager to bring our unique blend of blues and rock to a broader audience and continue pushing the boundaries of our sound."

"Tennessee Blues Mob embodies the fusion of traditional blues with modern rock, creating a sound that's both nostalgic and refreshingly new," remarked **Mark A. Skoda**, CEO of Iron Gate Records. "Their energy and artistry align perfectly with our mission to promote innovative music, and we're excited to support them in this next chapter."

With Iron Gate Records, Tennessee Blues Mob plans to release new material that delves deeper into their distinctive style, aiming to resonate with both longtime blues enthusiasts and new listeners.
