

## Upgrade Your Charging Game: Shield's 200W & 165W GaN Chargers Now Available on Flipkart & Amazon

For those who need a high-power, efficient solution for charging multiple devices at once, the Shield 165W GaN PD3.1 USB-C Fast Charger is the perfect choice.

The advertisement features a dark blue background with a glowing effect. On the left is a white multiport GaN charger with five ports (two USB-A and three USB-C) and the Shield logo. On the right is a white 200W GaN charger with a Type-C port and the Shield logo. The text 'Ultimate Power' is in large yellow and red letters, 'Multiport: SHIELD GaN Chargers' is in white, and 'High Power Adapter' is in smaller white text. At the bottom, it says '::: 200W –Fast, Compact, Multi-Device Charging' in yellow and red. The Shield logo is in the top right corner.

# Ultimate Power

## Multiport: SHIELD GaN Chargers

High Power Adapter

**::: 200W –Fast, Compact, Multi-Device Charging**

Gurgaon, Haryana Dec 4, 2024 ([Issuewire.com](http://Issuewire.com)) - In today's fast-paced world, we rely on a multitude of devices to stay connected, productive, and entertained. Laptops, smartphones, tablets, and even gaming consoles need constant power to keep up with our busy lives. That's where efficient and fast charging solutions come into play. If you're tired of waiting hours for your devices to recharge, then it's

time to upgrade to Shield's latest range of GaN chargers—the 200W and 165W USB-C fast chargers, now available on Flipkart and Amazon.

## What is GaN Technology and Why It Matters?

Gallium Nitride (GaN) is a groundbreaking material used in modern chargers that are changing the way we think about power delivery. Unlike traditional silicon-based chargers, GaN chargers are more compact, more energy-efficient, and capable of handling higher power output without generating excessive heat. This means you get the same (or better) charging speeds in a much smaller, more portable design.

GaN chargers allow you to quickly power up multiple devices without bulky, heat-prone adapters cluttering your space.

## Shield 165W GaN PD3.1 USB-C Fast Charger – Features & Benefits

For those who need a high-power, efficient solution for charging multiple devices at once, the **Shield 165W GaN PD3.1 USB-C Fast Charger** is the perfect fit. This charger offers an impressive 165W power output, making it an ideal choice for everything from laptops to smartphones, and even gaming consoles.

Here's why this charger should be at the top of your list:

### Key Features:

- **165W Power Output: Charge high-powered devices like MacBook Pro, MacBook Air, HP laptops, and Samsung Galaxy smartphones quickly and efficiently.**
- **Universal Compatibility:** This charger is compatible with a wide range of devices, including the iPhone 14 series, iPhone 13, iPad Pro, Google Pixel, Nintendo Switch, and more.
- **PD3.1 Support:** With the latest PD3.1 technology, this charger ensures optimal power delivery, maximizing charging speeds and efficiency across all your devices.
- **Multi-Port Charging:** With 4 charging ports, you can charge up to 4 devices simultaneously without compromising on speed.
- **Launch Offer: Included Cable -** The 165W charger comes with a 6.5ft 100W PD USB-C to USB-C cable, ensuring you have everything you need to start charging right away.
- **Global Plug Compatibility:** The charger comes with UK, EU, and US plug options, making it ideal for travel or international use.
- **Warranty:** 1 Year Standard warranty.
