

Whiskers' Edge Music Releases "Hot Rod Backyard" A Song of Hope to Support a Family in Need

Celebrating resilience and friendship through music, with a mission to make a difference this holiday season.

Carefree, Arizona Dec 21, 2024 (Issuewire.com) - Whiskers' Edge Music, an AI-powered music collective, has released "Hot Rod Backyard" a new alt-country and southern rock track with a heartfelt mission. The song is now available on [Spotify](https://open.spotify.com/), [Apple Music](https://music.apple.com/), and [YouTube Music](https://www.youtube.com/watch?v=). It blends nostalgic themes of camaraderie and resilience with a call to action to support a family in need.

The inspiration behind **"Hot Rod Backyard"** comes from Robert Ciolino and his wife, Jennifer Franks Ciolino's best friends, Dave and Pam Munkelt. Dave, a talented craftsman known for building custom hot rods, has spent decades turning raw steel into works of art. His passion for creating something extraordinary has touched countless lives. Now, as he battles stage 4 colon and liver cancer, Pam stands by his side, facing significant health challenges. Their journey, marked by courage and love, embodies the resilience this song celebrates.

"This song is not just a tribute to the golden age of hot rods but a celebration of resilience and friendship," said Robert and Jennifer. "We hope it inspires people to come together and help Dave and Pam during this critical time."

Whiskers' Edge Music has launched a GoFundMe campaign at <https://gofund.me/6bde1985> to help cover Dave and Pam's medical and living expenses. With a goal of \$60,000, every contribution provides vital support. Donors will receive a complimentary copy of "Hot Rod Backyard" as a token of gratitude.

A Song Built on Collaboration

"Hot Rod Backyard" was written collaboratively by Robert, Jennifer, Dave, and Pam, reflecting their shared love for classic cars and enduring friendship. The track was brought to life by Whiskers' Edge Music, blending nostalgia with modern themes in emotionally resonant songs.
