

Wryst has launched a new limited series featuring four automatic watches

The independent Swiss watch brand reveals four new automatic watches running a certified Chronometer movement.

London, United Kingdom Dec 6, 2024 ([IssueWire.com](https://www.IssueWire.com)) - Wryst is renowned for creating luxury men's watches in small, limited editions. The new SX series has seen a significant reduction in availability, decreasing from 75 pieces in the Racer collection to just **40 units**.

Each of the four new models exudes an adrenaline-fueled style, and this time, the automatic watches feature a more classic design along with a fully open case back.

[Wryst SX5 Energized Swiss High-End Automatic Rose Gold Watch](#)

The reference SX5 in **polished rose gold** represents a distinguished timepiece that captures attention effectively. Its 50mm case, constructed from high-grade stainless steel, conveys a robust and masculine appearance. The black dial, featuring understated details, contributes to both clarity and sophistication, while the **luminescent hour markers and hands** facilitate optimal readability in low-light

environments. This watch is equipped with a reliable **Swiss-made automatic movement**, ensuring precise timekeeping and smooth functionality.

[Wryst SX6 Automatic Men's Gold Watch for your Luxury Lifestyle](#)

Gold serves as a symbol of wealth, luxury, and success. This exquisite luxury watch exemplifies personal achievements and is ideally suited for activities such as yachting, driving classic luxury automobiles, or fine dining in Monaco. This timepiece not only reflects a prosperous lifestyle but also possesses technical sophistication. The watch's reverse side showcases a Swiss movement that features a **power reserve of 38 hours**, along with **26 jewels** and a heartbeat of **28,800 beats per hour**. Furthermore, the elegantly curved case enhances its golden brilliance, rendering the Wryst SX6 a striking accessory and an excellent conversation piece.

[Wryst SX7 Bold and Masculine Swiss Automatic Blue Dial Watch](#)

The SX7 exemplifies a sleek and sophisticated design aesthetic, featuring a deep blue dial complemented by polished galvanized accents. The watch is housed within a **50mm case** with a brushed finish, contributing to a luxurious and refined appearance. The blue dial is enhanced by elegant Roman numeral hour markers, imparting a sense of classic sophistication. Furthermore, the timepiece is driven by a high-quality **Swiss automatic movement**, ensuring precise timekeeping and a smoothly sweeping seconds hand.

[Wryst SX8 Black Automatic Watch with a Red Dial for Motorsports](#)

Introducing the Wryst SX8, a sophisticated automatic timepiece distinguished by its striking red dial and refined carbon fiber leather strap. This exquisite watch is specifically designed for motorsport aficionados, featuring a precise mechanical movement that ensures exceptional timekeeping. The transparent case back provides a view of the dynamic mainspring, establishing this model as the most intense offering from the Wryst collection. These assertive **Swiss automatic chronometers** present an even bolder aesthetic for racers and drivers alike. Embrace your competitive spirit with this black mechanical watch featuring a red dial, and experience a remarkable combination of style, accuracy, and durability.

Wryst's latest SX collection showcases an impressive array of automatic watches, each exuding its own distinct character and style. From the bold, rugged designs perfect for those who embrace adventure, to the timeless elegance appealing to classic aesthetics, there is a Wryst SX watch to match every individual taste. What makes this collection even more special is that every reference is a limited edition, with only **40 pieces available**, ensuring that each watch is not just a timepiece, but a rare treasure.

Retail price from **£1595 GBP**
