

Yavar introduces Z-platforms : Secure, industry-specific private AI solutions for enterprises

The graphic features a dark blue background with a subtle purple and blue gradient. The Yavar logo is in the top left. The main text is centered and reads 'YAVAR LAUNCHES Enterprise-grade private AI platforms'. Below this are four rounded rectangular boxes, each representing a different Z-platform: Z-Agent (Your 24/7 AI Agent), Z-Privè (Your Private AI), Z-Vision (Pixel to insights, in a blink), and Z-Predict (Your data's crystal ball).

Your 24/7 AI Agent

Z-Privè
Your Private AI

Z-Vision
Pixel to insights, in a blink

Z-Predict
Your data's crystal ball

Singapore, Singapore Dec 19, 2024 ([IssueWire.com](https://www.issuewire.com)) - Yavar, a pioneering enterprise AI platform company, today announced the launch of **Z-Platforms**, a comprehensive suite of private AI solutions powered by their revolutionary **ZGrid engine**. Designed for industry-specific applications, Z-Platforms empowers enterprises with complete data control, precise outcomes, and predictable costs.

"Our Z-Platforms suite underscores Yavar's mission to democratize enterprise AI by prioritizing privacy, adaptability and industry relevance." said MD Asiq, Co-Founder & CEO of Yavar. "We are enabling organizations to deploy powerful AI solutions tailored to their unique needs – without compromising on data control or cost predictability."

The Z-Platforms suite represents a new paradigm in enterprise AI deployment, combining security, accessibility, and operational efficiency. The platforms now enable organizations to address specific business challenges.

The suite includes four specialized platforms:

- **Z-Agent:** An agentic AI platform that personalizes each step of the customer journey.
- **Z-Privé:** A secure, private AI platform that unifies enterprise data into a unified, reliable source.
- **Z-Vision:** A sophisticated computer vision platform that converts visual data into actionable insights.
- **Z-Predict:** An advanced analytics platform that leverages historical patterns into strategic foresight.

Each platform is built on the ZGrid engine framework, which ensures seamless integration while maintaining rigorous data privacy standards. This robust architecture allows deep customization across industries – from manufacturing to retail to healthcare - while protecting organizations' sensitive information.

About Yavar

Yavar (www.yavar.ai) is an enterprise AI platform company specializing in private AI solutions that act as digital twins for organizations. By delivering industry-specific capabilities, Yavar empowers businesses to innovate confidently, ensuring measurable success and complete data sovereignty.
