

Aryze Secures \$20 Million Strategic Investment from Rollman Management Digital

New capital fuels Aryze's next-gen stablecoin solutions, strengthening tokenomics and expanding global reach for fintechs and enterprises.

Copenhagen, Denmark Jan 30, 2025 (Issuewire.com) - [Aryze](#), a leading [provider of stablecoin solutions](#), today announced a landmark \$20 million investment agreement with [Rollman Management Digital](#), a blockchain-focused investment and management consultancy. The partnership will accelerate Aryze's mission to empower fintechs, enterprises, and brands worldwide with cutting-edge stablecoin technology for secure financial operations.

Strategic Alignment and Tokenomics

The investment is structured around Aryze's ecosystem token, \$Ryze, leveraging its performance and momentum. Rollman Management Digital's capital infusion will support Aryze's "buy back and burn" tokenomics model, designed to enhance token scarcity and directly reward holders as the company scales.

"We are thrilled to partner with Rollman Management Digital, whose expertise in blockchain innovation aligns perfectly with our vision," said Jack Nikogosian, CEO of Aryze. "This collaboration not only validates our tokenomics strategy but also provides the resources to expand our global footprint, enabling businesses to harness stablecoins for seamless cross-border transactions and regulatory-compliant treasury management."

Use of Funds

Aryze will allocate the investment to:

- Expand its operational team across technology, compliance, and business development.
- Boost product development for its recently launched stablecoin issuance platform and treasury management tools.
- Secure additional exchange listings for the \$Ryze token.
- Scale global marketing efforts to drive adoption among fintechs and enterprises.

Rollman Management Digital's Vision

Rollman Management Digital, a British Virgin Islands-incorporated firm led by Victor R. Ch. Rollman, focuses on advancing blockchain protocols and disruptive technologies. The firm's portfolio includes ventures in finance, mining, and wealth management.

"Aryze's innovative approach to stablecoin infrastructure and revenue-sharing tokenomics positions them as a frontrunner in the digital economy," said a spokesperson for Rollman Management Digital. "We are confident this partnership will unlock transformative value for businesses navigating the future of finance."

Aryze's Next-Gen Stablecoin Solutions

Aryze recently unveiled a suite of services, including:

- Regulatory-compliant stablecoin issuance for businesses.
- Secure treasury management tools with real-time auditing.
- Cross-border payment solutions are designed to reduce costs and settlement times.

These offerings cater to fintechs, governments, and enterprises seeking to integrate blockchain-powered financial infrastructure.

About Aryze

Aryze is a global stablecoin technology provider dedicated to bridging traditional finance with decentralized innovation. Its platform enables businesses to issue, manage, and audit stablecoins while adhering to global regulatory standards. Learn more at www.aryze.io.
