

Born to Be Dog Training launches game-changing online academy

Breaking down barriers for the Deaf community in dog training

Parsippany-Troy Hills, New Jersey Jan 7, 2025 ([IssueWire.com](https://www.issuewire.com)) - Breaking new ground in dog training education, Leah Bornstein—owner of Born to Be Dog Training—is launching online e-courses accessible in both American Sign Language (ASL) and Spoken English, making high-quality dog training available to a diverse audience and breaking down barriers for the Deaf community.

Leah Bornstein, a Deaf, VSA-Certified, and Fear-Free Certified professional dog trainer with over 11 years of teaching experience, graduated from California State University, Northridge (CSUN) with a degree in Deaf Studies before earning her dog trainer certification at the Victoria Stilwell Academy (VSA). After earning her certification, Leah went on to achieve Fear Free Animal Trainer certification and complete Michael Shikashio's course, *Aggression in Dogs*. With a strong foundation in both Deaf culture and science-based positive reinforcement dog training, Leah has designed these online courses to empower dog guardians and professionals to effectively train and support their dogs in an inclusive, accessible environment.

Leah combines her expertise in science-based dog training with her dedication to accessibility, ensuring all learners — regardless of background or hearing ability — have equal access to quality resources. The Born to Be Dog Training Academy offers mini-courses on key topics like reactivity, puppyhood, dog body language, obedience, behavioral challenges and more, helping guardians build confidence in any situation. The MasterClass is the true highlight, combining all seven mini-courses into one comprehensive program for those seeking an in-depth training experience that sets their dog up for long-

term success.

“Effective communication is essential in every relationship, including with our dogs. I’m excited to bring a new, inclusive way for people to learn, grow, and connect with their dogs,” Leah shares.
