This new faith filled single is dedicated to his mother who he lost on the same day 5 years ago. Listeners can expect to hear the amazing truth around the freedom that is experienced in knowing Jesus Christ via this melody that blends pop, country, and Christian styles. As we cherish life here and ever after for those we've lost, many will relate to this experience captured in song.

Dallas, Texas Jan 6, 2025 (Issuewire.com) - Musician, Singer, Songwriter, Producer, Jameson Zayas isn't new to music, but he is new to delivering his talents for God's purpose. Jameson recently became a Christian and is now dedicated to changing lives everywhere one song at a time.

He has partnered with musicians Jorge Laboy, Carlos de Leon, and Gustavo Essinger as well as 3- time grammy award winning sound engineer Sean Moffitt to bring this first song to you.

In this debut single, Walk Again, many will be able to relate to the loss of a loved one and the hope and freedom that can be achieved in Christ's love. January 31st, 2020 was the day that Jameson lost his mom after a difficult medical battle and that day both of their lives were forever changed.

This year on the 5th anniversary of her death, January 31st, 2025, he hopes to reach others with an inspiring message of Faith.
