

Drug Abuse Story - God Healing The Land

Drug abuse and drug addiction has done a horrible work on the hearts and minds of the people.

St. Louis, Missouri Jan 31, 2025 (IssueWire.com) - St. Louis, Mo, the author, Brian Keith, writes a book titled, [*I Did Not Know*](#). The *I Did Not Know* book explains the power of drug addiction and drug abuse. The book is an autobiography. Although the book is about the author, many once drug addicted people should be able to relate.

The story is not only for drug addicts but also for non-drug users, too. The main purpose of the book is to show a world of people that drugs are the reason for most violence and crimes. Once the brain is operating from chemical controlled substances, any type of reaction might occur.

Many people believe the [word of God is the only solution to the violence and crime](#) problems. God has commanded prophets and disciples to use His Word to heal the land. The prophets and disciples are chosen for such a task. The word of God has always been the solution, but a world of people chose to do it their way.

The word of God is the medicine to heal sick minded drug addicted people. The people have allowed chemical control substances to their bodies. God's People must go out into all the world and face these people who might not know the truth about their evil doings. Using the word of God to heal the land is the best way to fight this drug and violence war.

The land is not only filled with the disease Cancer, Sickle cell, Anorexia, Drug Addiction, etc. Drug Addiction does a work of negativity on the minds of the people. Not many people understand that drugs play a key role in crime and violence. People's minds and visions are changed once drugs have been used for so long.

Our command from the God of Heaven is to witness to as many people as possible. If it takes the Word Of God to heal people's hearts and minds, then surely people must go witness. God uses people to speak his word to the people.

The goal is to persuade people to realize they are not only hurting themselves but also those around them. This Christian, who wrote a book on drug abuse and addiction, gives the readers written examples of all his experiences when he was addicted to drugs.

Although [the I Did Not Know](#) story is about Brian Keith's personal experiences, it has the power to save communities. Not only that but the story is written to give people a bird's eye view of the importance of following their dreams. Our hope is to persuade more people to become dream fulfillers, rather than experiencing shattered dreams.

The scripture says, in Psalms 119: 20- He sent His word and healed them and delivered them from their destruction. The I Did Not Know book is a message sent by the Lord our God. The whole purpose of sharing the Word of God is to let people know there is help in the midst. Due to that alone, words are a powerful reason for a person's healing. Medicine does its part too, but the word of God does another.

This drug addiction story has the ability to enable people to live healthy and prosperous. It explains how and why Jesus should be the "way" of your life. This story will fit into whatever journey a person seems to be on. Your journey in life right now might be pleasant or not, but this story will speak to you. It will

turn readers' hearts and minds completely away from myth to believing drugs did that.

Staying focused on what is most important should always be in mind. This story testifies about the importance of staying focused. Staying focused on the dreams you have set might make our city a more peaceful place. ***The I Did Not Know*** story explains the consequences due to those who take steps into the wrong direction.

Spiritual solutions are provided. The book is Christian based, and it provides scriptures to back up its reason for all things. Many believe marijuana is not a drug. They only believe Heroin, Cocaine, PCP, Inhalants, LSD, Methamphetamine, and Steroids are the only substances that harm the brain.

After reading this book, you will see that it all starts with marijuana. Most narcotics addicts first used and abused marijuana before indulging into narcotics.
