

## January 2025: “Women’s Wave” Protest in Boulder

Action in Boulder one of more than 200 events in Cities Nationwide set to Protect all our basic Freedoms

**Boulder, Colorado Jan 16, 2025 ([Issuewire.com](http://Issuewire.com))** - On January 18th, 2025 in Boulder County a Women's Wave is coming to every state in this country. We are united in our commitment to freedom and dignity for all Americans and putting failed 'leaders' on notice- from Supreme Court Justices to candidates running for office, to sitting electeds on both sides of the aisle - we will not stop marching, protesting, voting, running for office until ALL of our freedoms are protected.

The events, organized by Boulder Peoples March are demanding better. The freedom to decide how, when and if we bear children. The freedom to raise children free from the terror of gun violence. The freedom to vote and participate fully and completely in a functioning democracy. The freedom to live in a country where we are invested in everyone's prosperity.
