

Jerry L. Schutz, RN, BSN, CFCS: Revolutionizing Foot Care for Seniors and Diabetics

Providing Expert Solutions for Healthy Feet with Compassionate Care in Moscow, Idaho

New York City, New York Jan 21, 2025 ([IssueWire.com](https://www.issuewire.com)) - Jerry L. Schutz, RN, BSN, CFCS, an experienced Registered Nurse and Certified Foot Care Specialist, proudly announces the launch of Sole Support, LLC, dedicated to providing exceptional foot care services for seniors and diabetics in Moscow, Idaho. With a deep commitment to enhancing the quality of life for his patients, Jerry combines his nursing expertise with a personal passion for foot health.

“I learned from caring for my dad that one’s feet and teeth have the greatest impact on maintaining the quality of life as we age. Keeping patients on their feet allows them to better care for themselves, as well as enjoy the countless life-enriching activities that require standing and walking,” says Jerry. His philosophy emphasizes the importance of mobility and self-care, particularly for those in their golden years.

At Sole Support, LLC, professional foot care involves specialized treatment for various foot conditions, provided by a qualified healthcare professional. Services range from simple nail care and skin treatments to addressing more complex issues, including long, thickened, or discolored toenails, calluses, and other foot problems. When necessary, Jerry ensures that patients are referred to a podiatrist or their primary care provider for more advanced care.

Jerry earned his Bachelor of Science in Nursing Degree from Lewis-Clark State College in 2015, building on his foundational training at the University of Idaho. His unwavering commitment to his specialty has positioned him as an expert in foot care, significantly improving the lives of his patients.

A firm believer in the power of compassion in healthcare, Jerry often cites Theodore Roosevelt: “People don’t care how much you know until they know how much you care.” This quote encapsulates his approach to patient care, emphasizing the importance of building meaningful connections through genuine concern for others’ well-being.

In addition to his practice at Sole Support, LLC, Jerry is excited to announce an upcoming book titled, *Aging Gracefully in Place*, which aims to provide insights and guidance for seniors and their caregivers on maintaining health and well-being as they age.
