

Priya Hays, Ph.D., Empowers Healthcare and Academic Institutions with Expert Documentation Solutions

Elevating Scientific Communication in the Biomedical Field

New York City, New York Jan 13, 2025 ([Issuewire.com](https://www.issuewire.com)) - Hays Documentation Specialists, LLC, led by accomplished science writer Priya Hays, M.S., Ph.D., is committed to publishing journal articles and participating in conferences tailored for the biomedical industry, major medical centers, and higher education institutions. With an extensive background in both writing and the life sciences, Dr. Hays brings a unique blend of expertise that addresses the critical need for presenting rigorous studies in

scientific and medical literature.

With a postdoctoral research fellowship completed at Dartmouth Medical School's Division of Hematology/Oncology, she gained bench research experience and pursued interdisciplinary initiatives in genomics, science, and literature. Her educational background, which includes an A.B. with Honors in Biochemistry and Comparative Literature from Dartmouth College, an M.S. in Genetics from the University of California, Davis, and a Ph.D. in Literature from the University of California, San Diego, has made her a productive academic for engaging in profound themes in cancer, precision medicine, and artificial intelligence.

Hays Documentation Specialists was founded in response to the growing demand for meticulous science writing within the biomedical field. Dr. Hays states, "Personalized medicine and cancer immunotherapies, work that I have published in, have led to robust improvements in patient care, and have greatly assisted physicians in the treatment of cancer patients with targeted therapies and immunotherapies and led to a paradigm shift in both healthcare and scientific research."

Having spent years as a technical communications specialist in the medical device and biotechnology industries, Dr. Hays is adept at creating user manuals, conducting usability testing, and managing content across diverse platforms. Her involvement with organizations such as the American Society of Clinical Oncology and the Society for Immunotherapy of Cancer further exemplifies her commitment to learning about oncology and cancer immunotherapies.

Moreover, she boasts an impressive portfolio of contributions to the scientific community, having authored five books and over twenty peer-reviewed journal articles, including works published in the renowned Bulletin of Science, Technology and Society, Future Oncology, European Journal of Medical Research, and Genetics in Medicine. Her latest publication, "A Dialectical Mind: Essays in Literary Studies, Science and Medicine," showcases her interdisciplinary approach to complex topics at the intersection of science and literature.
