

# SpringOwl Technology Partners Leads Investment in Qryptonic Inc., Launching a New Era of Quantum Cybersecurity

## QRYPTONIC

SECURING TOMORROW, TODAY

**New York City, New York Jan 3, 2025 ([Issuewire.com](https://www.issuewire.com)) - SpringOwl Technology Partners Leads Investment in Qryptonic Inc., Launching a New Era of Quantum Cybersecurity**

*Jason Nathaniel Ader Joins as Co-Founder and Chief Innovation Officer to Advance Post-Quantum Security*

In a bold step to redefine global cybersecurity, SpringOwl Technology Partners LLC has led a strategic investment group to acquire a controlling stake in Qryptonic Inc., a trailblazer in quantum-powered cybersecurity. This landmark investment positions Qryptonic at the forefront of the race to secure enterprises and governments against the imminent threat of “Q-Day,” the moment quantum computing renders traditional encryption obsolete.

The acquisition also introduces Jason Nathaniel Ader, a renowned entrepreneur and quantum strategist, as Co-Founder and Chief Innovation Officer. Ader's appointment marks a pivotal moment in Qryptonic's journey, underscoring its commitment to leadership and innovation in the rapidly evolving field of quantum cybersecurity.

## Why Qryptonic Matters: The Global Imperative for Post-Quantum Security

Qryptonic Inc. has quickly established itself as a leader in post-quantum readiness, delivering cutting-edge products and services designed to protect critical systems from quantum-era threats:

- **Quantum Vulnerability Assessments:** Proactively identifying risks in legacy encryption systems.
- **Quantum-Resistant Encryption:** Deploying NIST-aligned lattice-based and hash-based cryptography to safeguard sensitive data.
- **Quantum Key Distribution (QKD):** Revolutionizing communication security with tamper-proof encryption.
- **Digital Locksmith (Quantum Penetration Testing):** Simulating advanced quantum threats to uncover vulnerabilities.

Since its founding, Qryptonic has secured partnerships with Fortune 500 companies and government agencies, positioning itself as a trusted leader in post-quantum readiness. The company's flagship **Post-Quantum Readiness Assessment Tool** has become a gold standard for enterprises preparing for the quantum future.

**“Qryptonic isn't just a company—it's a mission,” said Jason Nathaniel Ader.** “We are at a turning point in cybersecurity history, and Qryptonic's solutions empower organizations to transform quantum challenges into opportunities for resilience and growth.”

**“At Qryptonic, we're at the forefront of developing quantum-resistant solutions that address the cybersecurity challenges of tomorrow,” said Megan Liu, Chief Technology Officer and Co-Founder.** “This investment accelerates our ability to innovate and deliver cutting-edge technologies that safeguard our clients' critical data in the post-quantum era.”

## SpringOwl Technology Partners: Catalyzing Industry Transformation

SpringOwl Technology Partners, known for its expertise in scaling transformative ventures, served as the exclusive advisor for this acquisition. With a track record of driving success in high-growth sectors, SpringOwl's leadership is propelling Qryptonic into its next phase of growth, amplifying its reach and impact.

**“Quantum computing is not just a technology revolution—it's a cybersecurity reckoning,” said a SpringOwl spokesperson.** “Our investment in Qryptonic reflects our belief in their ability to lead this industry and protect critical systems worldwide.”

## Jason Nathaniel Ader: The Voice of Quantum Leadership

As a globally recognized entrepreneur and thought leader, Jason Nathaniel Ader brings decades of experience in technology, governance, and innovation to Qryptonic. His firsthand encounter with a state-sponsored cyberattack catalyzed his passion for quantum security, making him a sought-after speaker on quantum disruption and post-quantum strategy.

**Upcoming Media Opportunity:** Ader's forthcoming book, *The Quantum Almanac 2025–2026: Leadership, Innovation, and Survival in the Post-Q Day Era*, launches later this month. This definitive guide provides actionable insights for navigating the quantum revolution and solidifies Ader's role as a global authority on quantum strategy.

## The Path Ahead for Qryptonic

Under SpringOwl's leadership and Ader's guidance, Qryptonic is poised for exponential growth. Key initiatives include:

- **Expanding globally** to meet surging demand for quantum cybersecurity solutions.
- **Launching the \$1 Million Quantum Penetration Challenge**, inviting global enterprises to test their resilience.
- **Broadening its product portfolio**, introducing scalable, enterprise-ready quantum-resistant technologies.
- **Partnering with governments, academia, and Fortune 500 companies** to establish global post-quantum standards.

## About Qryptonic Inc.

Qryptonic Inc., headquartered in Miami, FL, and New York, NY, specializes in quantum-powered cybersecurity solutions designed to protect organizations from the threats of the quantum era. Its mission is to deliver innovative tools that ensure resilience and enable growth in an increasingly complex digital landscape.

## About SpringOwl Technology Partners LLC

SpringOwl Technology Partners LLC is a technology-focused investment firm dedicated to scaling groundbreaking ventures. With deep expertise in cybersecurity and emerging technologies, SpringOwl empowers companies to achieve transformative growth.
