San Diego, California Jan 8, 2025 ([IssueWire.com](https://www.issuewire.com)) - **tryply**, the next-generation platform for discovering live music events is proud to announce its official launch, offering music lovers a groundbreaking way to explore concerts, festivals, and performances. Designed by live music enthusiasts, for live music enthusiasts, tryply transforms the live music discovery experience into a visually immersive journey, enabling users to find events on an interactive map, listen to artist's top tracks, and easily purchase tickets.

Discover Live Music Like Never Before

Whether you're looking for your next local gig or planning a musical adventure in a new city, **tryply** offers an intuitive platform to find live performances. The core feature of tryply is its interactive map, where users can visually search for events by **artist, location, venue, and date**. The map is designed with the live music lover in mind, offering a seamless way to discover shows near you or in your travel destination.

Personalized Recommendations with Spotify Integration

With tryply, music discovery goes beyond just finding events. **By connecting your Spotify account**, tryply tailors recommendations based on your listening habits, showing you your favorite artists as well as similar ones playing nearby. The more you connect, the more personalized your experience becomes, ensuring you never miss a show from the artists you love or discover new ones to add to your playlist.

One-Stop Shop for Tickets

Once you've found the perfect event, purchasing tickets is simple and straightforward. tryply partners with top ticket providers like **Ticketmaster** and **StubHub**, so you can go from discovering a concert to securing your tickets with ease. No more jumping between sites – tryply brings everything you need into one seamless experience.

Music Previews & Inspiration for Your Next Adventure

Whether you're unsure about attending an event or just want to get into the mood before a show, tryply allows you to **listen to top tracks** from your favorite artists, or even explore new tunes from similar acts. This helps you make informed decisions about which shows to attend and gets you ready for the live music experience.

Additionally, if you're traveling for work, vacation, or an adventure, tryply makes it easy to **search for live music** in any city. Simply input your travel dates and destination, and discover local shows that align with your itinerary.

Discover New Artists & Expand Your Music World

Every time you search for an artist, tryply not only shows you their upcoming events but also introduces you to **similar artists**. It's a great way to broaden your musical horizons and ensure you're never stuck

in a musical rut.

About Tryply
