## Fort Myers, Florida Feb 4, 2025 ([IssueWire.com](https://www.IssueWire.com)) - New Release: Economic Liberation – Unburdening American Businesses from FICA and Healthcare Costs

A groundbreaking new book is making waves across the nation by tackling two of the most pressing issues facing Americans today: the economy and healthcare costs. *Economic Liberation: Unburdening American Businesses from FICA and Healthcare Costs* by Roy J. Meidinger is a must-read for policymakers, business leaders, and concerned citizens looking to drive real economic change.

### The Economic Struggles Americans Face

The United States is currently grappling with intertwined challenges—a declining manufacturing sector, a widening trade deficit, and skyrocketing healthcare costs. These issues are straining businesses, burdening individuals, and weakening America's competitive edge in the global economy. As a result, businesses struggle to grow, wages stagnate, and millions of Americans find themselves unable to afford essential healthcare services.

Recent surveys highlight just how deeply these concerns affect everyday Americans:

- **57%** of Americans consider the affordability of healthcare to be a “very big problem.” (Pew Research, May 2024)
- **39%** of voters cited the economy or jobs as their top issue in the 2024 election.
- Only **13%** of Americans feel they are progressing economically, while **63%** rate current conditions as poor.
- **74%** of adults are worried about unexpected medical bills, and **73%** are concerned about rising healthcare costs.

### Why *Economic Liberation* is a Game-Changer

This timely book provides a compelling analysis of how FICA taxes and healthcare costs hinder economic growth, preventing businesses from thriving and reducing job opportunities. By proposing bold yet practical solutions, *Economic Liberation* aims to revitalize the U.S. economy by:

- Reducing the financial strain of FICA and healthcare costs on businesses.
- Strengthening the manufacturing sector to bring jobs back to America.
- Addressing the trade deficit to enhance economic security.
- Proposing healthcare reforms that alleviate costs for businesses and individuals alike.
