

Calyptus Unveils Employer Self-Serve: A Seamless Way to Discover Web3 Talent

 Calyptus

Talent at The Click of a Button

Employer Self Service is Live

London, United Kingdom Feb 6, 2025 ([IssueWire.com](https://www.issuewire.com)) - Calyptus, Web3's gamified hiring platform powered by AI and blockchain technology, is proud to announce the launch of its latest feature, **Employer Self-Serve**. This update allows Web3 companies to explore the Calyptus platform with ease, streamlining access to top-tier blockchain talent like never before.

With over 110,000 Web3 native users on Calyptus, the Employer Self-Serve feature empowers hiring teams with instant access to the platform. Companies can now explore key hiring tools, post jobs, and interact with pre-filtered candidate pools based on their job requirements, all without requiring a sales call.

Key Benefits of Employer Self-Serve:

- **Seamless Onboarding:** Sign up in seconds via email or Google and get instant access to the platform.
- **Tailored Candidate Pools** – View top-matching candidates based on job roles, experience, and skills.
- **Flexible Subscriptions:** Try out the platform before purchase. Join their monthly plan, cancel anytime.
- **Guided Onboarding:** Interactive tooltips and modals walk users through posting jobs and completing company profiles.

Calyptus has already helped **80+ top Web3 companies**, including **Aave, Optimism, and Aragon**, find talent **4x faster** while saving up to **70%** on traditional hiring fees. Now, with **Employer Self-Serve**, even more companies can experience the power of deep talent intelligence in Web3 recruitment for free.

Dan Jones, CEO of Calyptus, added: “Hiring in Web3 has never been this easy. With Employer Self-Serve, we’re tearing down the barriers between companies and top-tier talent. No more waiting, no more unnecessary steps—just instant access to the best minds in Web3, so you can build and ship the future, faster.”

To experience **Employer Self-Serve**, visit <https://www.calyptus.co/employers> today and start hiring the best Web3 talent with ease.
