

Meet the Teenager Who Built an 8-Figure Real Estate Company in Just Three Years

GREH

Houston, Texas Feb 27, 2025 ([IssueWire.com](https://www.IssueWire.com)) - At just 19 years old, Anthony Skaria, Founder & CEO of GLOBAL REAL ESTATE HOLDINGSTM, has built an 8-figure real estate investment firm in just three and a half years. What started as a one-man company with a \$3,000 marketing budget has grown into one of the fastest-growing real estate wholesale firms in the country, sourcing over \$80 million in single-family residential (SFR) investment properties in 2024 alone.

Anthony developed a deep interest in business and finance around the age of 9 or 10. Between 10 and 15, he read hundreds of books on the subject, building a strong foundation in entrepreneurship and investing. At 15, he founded GLOBAL REAL ESTATE HOLDINGS™ and graduated from high school the following year, at 16. By 18, his company had surpassed an eight-figure valuation, and he earned a bachelor's degree in Business Management from Excelsior University.

Anthony's focus is on aggressively scaling the SFR Division to \$28-30 million in annual profit, with each team member holding 1-10% equity stakes in the division. The strategy is clear: turn the SFR Division into a cash-flow machine and use that cash flow to acquire institutional-grade multifamily real estate, expanding GLOBAL REAL ESTATE HOLDINGS™ into a dominant force within the real estate industry.

To support this rapid growth, GLOBAL REAL ESTATE HOLDINGS™ has been developing proprietary software designed to streamline and simplify the entire SFR transaction process, allowing its team to close deals faster, scale more efficiently, and maintain a strong competitive edge in the market. By leveraging technology, market expertise, and strategic execution, GLOBAL REAL ESTATE HOLDINGS™ is positioning itself as an industry leader poised for massive expansion.
