BY HIC GLOBAL SOLUTIONS

[eSignature solution](#), is proud to announce the launch of its #GoGreen Initiative to Save Earth.

This has encouraged businesses to adopt eco-friendly digital signatures and reduce their carbon footprint. As a company dedicated to sustainability, the Sign Made Easy app empowers businesses to replace paper-based workflows with seamless, secure, and legally binding eSignatures that will drive a greener future for all.

In alignment with its mission to create a paperless world, Sign Made Easy is proud to be a part of Pledge 1%, committing a portion of its revenue, product, and employee time to environmental sustainability and social impact.

Through this initiative, businesses worldwide can now actively contribute to a more sustainable planet while optimizing their workflow with digital transformation to accelerate the world's journey to net zero.

Recognized for Environmental Leadership

Sign Made Easy has been honoured with multiple industry awards and badges for its innovative approach to eSignatures and corporate sustainability. Recognized for its eco-friendly impact, the company has earned accolades for reducing paper waste, lowering energy consumption, and driving digital efficiency across industries.

Mr Piyush Singhal, CEO & Co-Founder at HIC Global Solutions, said “Our goal is to revolutionize the way businesses handle documents while making a meaningful impact on the mother earth to #SavePlanet. The **#GoGreen** initiative is our call to action for companies worldwide to transition towards sustainable business practices.”

A Call to Action: Join the #GoGreen Movement to #SaveEarth

Sign Made Easy invites businesses, professionals, and sustainability advocates to join the **#GoGreen #SavePlanet movement** by switching to eSignatures. By eliminating paper waste and reducing dependency on physical documentation, companies can contribute to environmental conservation without compromising efficiency.

With **Sign Made Easy's award-winning** digital signing experience, organizations can enjoy:

Seamless document signing from anywhere, anytime.
Legally compliant, secure, and tamper-proof eSignatures.
A significant reduction in paper waste and environmental impact.

Together, let's **save the planet, one signature at a time.**

About Sign Made Easy
