Do you love stories, or love helping others? Imagine turning your passion for audiobooks into real-world impact. At Vcreativeart16 we're doing just that.

Since 2018, Tanzanian families have been receiving food, clothing, or housing assistance.

We're a nonprofit creating survival-focused audiobooks and ebooks. But it's more than just stories.

With every audiobook or ebook purchased, 50% goes directly to supporting families in Tanzania. We help provide food, housing, and clothing to those in need.

Many families are enjoying their food, clothing and shelter that they received from the donation

We promote and mentor authors and artists, new writers all year

We produced 19 books/audiobooks, 12 newsletters, and published 15 Articles in worldwide recognized magazines. But that's not all. We also provide 50 scholarships worth \$2,000 each and free advertising to writers, authors, and artists throughout the year. Your purchase helps us empower creatives and build a stronger community.

Call to Action - Buy our audiobooks on Audible to support our causes
